API Application Programming Interface

lets say,
you went to a restaurant
the waiter comes to you
and asks for your order

the waiter then sends
the order to the Chef

**The Chef start preparing
the food**

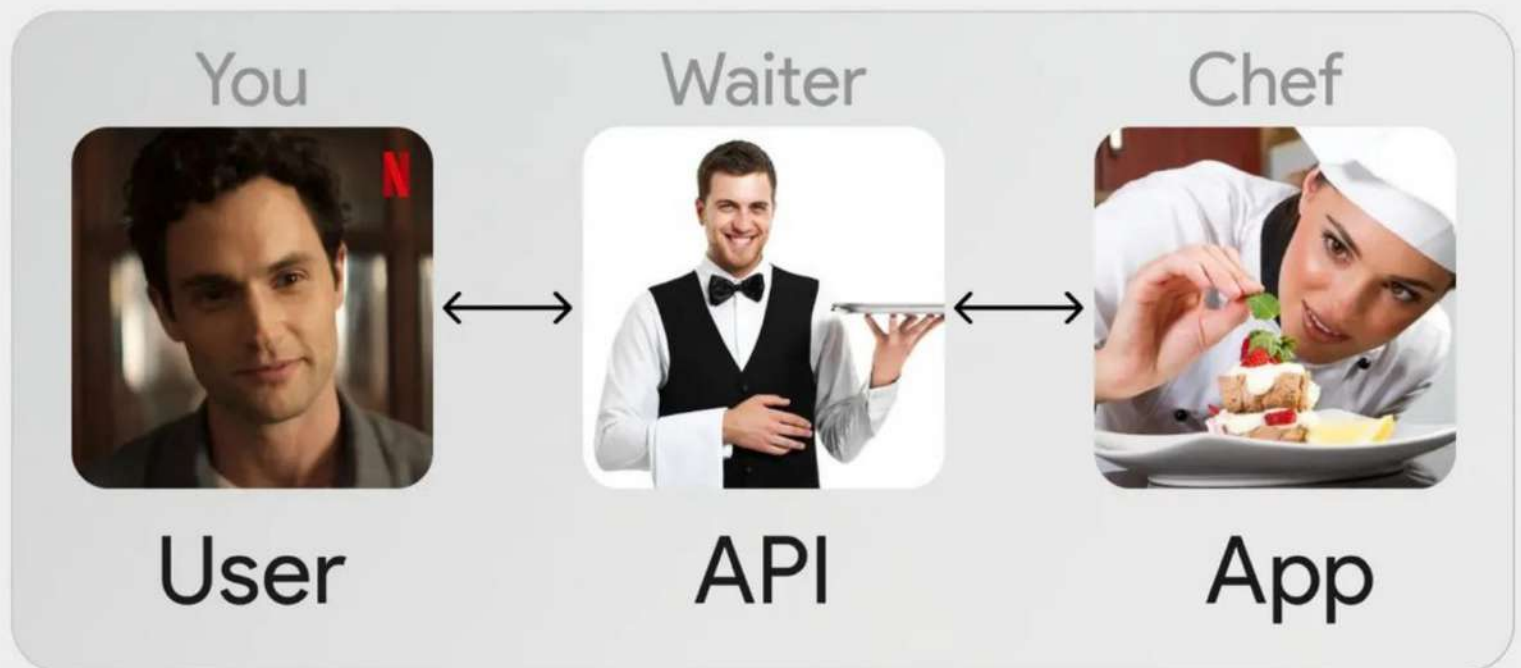

after the food is prepared

The Chef gives the food to the waiter and it comes to you

The waiter acts as a connection between you and the Chef

The waiter is API

An API is a way for two or more computer programs to communicate with each other
